**We ALL
Need Play**

WE ALL NEED PLAY

We believe that everyone, no matter age or ability, deserves the benefits of play, movement, and recreation. Our mission is simple: to deliver safe, high quality recreational environments that inspire activity, connection, and fun.

WHAT SETS US APART

Education is at the heart of every project. We help our customers understand their options so they can make confident, informed decisions that best fit their space, needs, and long-term goals.

-
- 30+ Years of Trusted Expertise
 - CPSI-Certified Project Managers
 - Industry-Leading Warranties
 - Responsive, Personalized Service
 - Precision, Safety & Attention to Detail

OUR VALUES

Safety

Every space we build meets or exceeds current ASTM and CPSC standards.

Quality

We help you maximize your investment with products that are built to last and designed for years of use.

Inclusivity

We help you create welcoming, accessible spaces that support inclusive play and meet your community's diverse needs.

Partnership

You'll have a trusted partner providing clear communication and guidance from concept through installation.

Regional Expertise

You get the resources of an established company with the personalized service of a local partner.

Service

You'll always have a real person available after the project is complete.

WE BRING YOUR VISION TO LIFE

OUR PROCESS

Consultation

Every successful project begins with a conversation and a complimentary site visit. We take the time to understand your goals, site, budget, and vision to create a space that's right for your community.

Design and Proposal

As part of our complimentary proposal process, our team transforms your ideas into a custom playground or recreation space with detailed layouts and realistic renderings, helping you visualize the finished project before construction begins. You'll receive a comprehensive proposal outlining your design, equipment, pricing, and project scope, giving you the information you need to move forward with confidence.

Install

Our experienced installation team brings your vision to life with careful attention to quality, safety, and craftsmanship. Once your turn-key installation is complete, we perform a final inspection to ensure every detail meets our high standards and your expectations.

Ongoing Support

Our partnership doesn't end when the project is finished. We're here to provide continued support, answer questions, and help you keep your playground or recreation space ready for years of enjoyment.

MEANINGFUL IMPACT

"Our experience working with [our project manager] has been fantastic. Supported by the team at All Recreation and Burke, [he] helped us envision a challenging new environment which would enrich all of our residents' children from toddlers to teens and beyond. The finished product is nothing more than transformative for our neighborhood and has brought new life to our common space."

"Working with All Recreation was a great experience. Our [project manager's] knowledge of licensing regulation for an early childhood playground gave us peace of mind that the final product would be safe and enjoyable for years to come. He worked directly with our contractor to make sure that installation went smoothly. His availability to meet and discuss options along with his attention to detail made this project feel manageable."

PLAY VALUE & EXCEPTIONAL CUSTOMER SERVICE AT EVERY INVESTMENT LEVEL

"We recently had the pleasure of working with All Recreation for the installation of a new playground at our school and we couldn't be more impressed with the entire process. From the initial consultation to the final touches, the team demonstrated exceptional professionalism, expertise, and dedication."

"I cannot speak highly enough of [our project manager] and the entire All Recreation team. Over the course of more than a year, they worked closely with our board to find the perfect playground that met our vision and budget. [His] work ethic was evident from day one - he was responsive, creative and completely dedicated to ensuring that every aspect of the project was handled with care."
